## About

Flutter Developer with 4+ years at a cross-functional unit inside Gazprom Neft. Author of 6 mobile products in App Store, Google Play and RuStore — including a product with 2 Russian federal software copyrights (RosPatent) and listing in the Unified Register of Russian Software (Ministry of Digital Development). Published Flutter SDK on pub.dev. Since 2025, combining engineering with project ownership: leading a team, coordinating cross-functional tracks, and managing client communication.

## Experience

### Gazprom Neft Group · punklab unit

**Flutter Developer** · Feb 2022 — Present · 4+ years

- Joined as the **5**th team member in **2022**; unit scaled to **28** people over **4** years.
- Since **2025** — combined Developer + Project Manager roles on a key team product.

#### Safety Framework (Каркас Безопасности) — Lead Developer + Project Manager

Flutter · Clean Architecture · Offline-first

- Designed, built and solo-maintained from scratch for **3+** years (**20,000+** RuStore installs).
- **2** RosPatent software copyrights + listing in the Unified Register of Russian Software.

#### Zenit FC Academy — Student Portal — Lead Flutter Developer

Flutter Mobile + Flutter Web · PWA → Native migration

- Migrated Flutter Web PWA to native mobile platforms (iOS + Android); published in App Store and Google Play.
- Shipped features driving DAU and retention; refactored and hardened stability.

#### Gazprom Neft Procurement App — iOS Maintainer + App Store Publishing Expert

Native iOS (Swift) · Compliance-driven publishing

- Live product: version **3.0.201** (Feb **2026**), ~**200** releases in the major line.
- Published in RuStore (**1,000+** installs, **4.2/5**) and in App Store under parallel rebranding.

#### EasyCheck — Lead Flutter Developer

Flutter · Clean Architecture

- Designed the target architecture; executed GetX → Clean Architecture migration.
- Published in RuStore and App Store; offline-first with auto-sync.

### Parallel Freelance / Contract Development

**Senior Flutter Developer** · Mar 2024 — Present

#### Surprise — FoodTech + E-commerce — Senior Solo Flutter Developer

Dec 2025 — May 2026

Flutter · Drift · Swift · Kotlin

- Mobile app for food delivery with a self-service kiosk mode for HoReCa terminals.
- Solo development from scratch to release: Clean Architecture, iOS Live Activities, separate kiosk branch.

#### Moskvichka — Lead Mobile Developer + Project Manager

Feb 2025 — Present

Flutter · Clean Architecture · Custom BLoC

- Mobile app for a chain of beauty salons: online booking, service catalogue, push notifications, loyalty.
- Owned the project end-to-end: from client brief to RuStore publication.

#### White-label e-commerce (NDA) — Mobile Developer

Mar — Aug 2024

Flutter · Custom BLoC

- Rework of a mobile app for a stretching-studio chain.
- Migrated state management from Riverpod to a custom BLoC (per client request).

## Own Products

**kpl360 (KUPOL.360)** Technical Co-founder

Feb 2026 — Present

- Solo technical delivery end-to-end: Flutter mobile, FastAPI backend, admin panel; integrations Firebase, iOS Live Activities, payments.
- Pilot at 2 institutions via TestFlight; production release — Q3 2026.

## Achievements & Recognition

TOP-TIER (FEDERAL / OFFICIAL)

- 2 RosPatent software copyright certificates (Safety Framework, iOS + Android versions, 2025)
- Listing in the Unified Register of Russian Software (Ministry of Digital Development, Safety Framework, 2025–2026)
- Letter of appreciation from the IT Director of Gazprom Neft (A. S. Dumin, IT Camp 2025)

INDUSTRY RECOGNITION

- Finalist — REXA-2025 (Russian Employee Experience Awards) — national award for digital employee experience and internal communications
- Finalist — 'People of Progress' award
- Grand Prix — IT Camp 2025 (team under my mentorship won)

OPEN-SOURCE

- Author of consta_analytics Flutter SDK on pub.dev — offline-first event queue with a typed event API

## Technical Stack

### Languages

Dart · Swift (publishing, maintenance) · Kotlin (prototyping)

### Flutter & Architecture

Flutter 3.x · Dart 3.x · Clean Architecture · Custom BLoC (RxDart) · Provider · dartz (Either<Failure, T>) · auto_route · go_router · injectable · get_it · freezed · json_serializable

### Data & Networking

Dio + interceptors · WebSocket · REST API design · Drift (SQLite, type-safe) · Hive · flutter_secure_storage

### Native & Platform

iOS Native (Swift) — App Store publishing · Android Native (Kotlin) — prototypes · Platform Channels · Deep Links · Flavors

### Integrations & Payments

Alfa Pay · YooKassa · SberPay · CloudPayments · Tinkoff · RevenueCat · Firebase (FCM, Auth, Remote Config) · iOS Live Activities · Sentry · AppMetrica · Amplitude

### CI/CD & Testing

Codemagic · GitHub Actions · Bitbucket Pipelines · Unit & Widget tests

### Full-stack (AI-assisted)

End-to-end delivery: backend (FastAPI / Python) and admin panel · Claude Code, Figma MCP

## Education

**Saint Petersburg State University of Aerospace Instrumentation (SUAI)**
BSc · Software Engineering · Computing Systems and Programming
2022

**Saint Petersburg University of Management and Economics**
MSc · Economics · Financial Management
2024

## Languages

**Russian** — Native

**English** — B2 Upper-Intermediate · working proficiency for documentation, code review, technical meetings

Open to relocation and business travel.
